The Zip-n-Squeeze Bags

This bag was designed for convenience and comfort for patients with facial and mouth surgeries who have a difficult time with, or are temporarily unable to use cups and straws. These bags are designed to be squeezed - "No Sucking required!" Prevents pain, pressure, and new incisions from bleeding. Gives jaws a rest and diverts liquid foods away from painful areas. These bags work wonderfully when filled with broth, liquids, protein drinks and pureed foods. This products can be used for both liquid hydration & nutrition or mouth care. Zip-n-Squeeze features a soft flexible tubing which allows patients to gently irrigate difficult to reach areas where a toothbrush temporarily cannot be used.

Benefits:

- Easy to use anywhere, anytime.
- Gentle squeeze of bag dispenses fluids. "No Sucking" required.
- Gives jaws a rest and promotes better nutrition when cups & straws are difficult to use.
- No Mess
- Easy closure with clamp prevents spills.
- Leak proof zipper top.
- Soft, flexible tubing promotes increased comfort.
- Rinses easily with soap & water.
- Disposable and reduces risk of bacterial contamination.
- Provides an effective and comfortable method of oral hygiene when toothbrushes temporarily cannot be used.
